
BILL REQUEST - CODE REVISER'S OFFICE

BILL REQ. #: Z-1173.6/02 6th draft

ATTY/TYPIST: LL:ads

BRIEF DESCRIPTION: Making transportation improvements.

1 AN ACT Relating to transportation funding and appropriations;
2 creating new sections; making appropriations; authorizing expenditures
3 for capital improvements; and declaring an emergency.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 NEW SECTION. **Sec. 1.** (1) The legislature recognizes that a good
6 transportation system is critical in keeping Washington state's economy
7 strong and its businesses competitive. The legislature further
8 recognizes that badly needed investments in our state's transportation
9 infrastructure will create jobs and help to ensure Washington's long-
10 term economic success.

11 (2) The transportation investment act of 2002 is hereby adopted
12 and, subject to the provisions hereinafter set forth, the several
13 amounts hereinafter specified, or as much thereof as may be necessary
14 to accomplish the purposes designated, are hereby appropriated from the
15 several accounts and funds hereinafter named to the designated state
16 agencies and offices for employee compensation and other expenses, for
17 capital projects, and for other specified purposes, including the
18 payment of any final judgments arising out of such activities, for the
19 period ending June 30, 2003.

(3) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout the act.

(a) "Fiscal year 2002" or "FY 2002" means the fiscal year ending June 30, 2002.

(b) "Fiscal year 2003" or "FY 2003" means the fiscal year ending June 30, 2003.

(c) "FTE" means full-time equivalent.

(d) "Lapse" or "revert" means the amount shall return to an unappropriated status.

(e) "Provided solely" means the specified amount may be spent only for the specified purpose.

PART 1

GENERAL GOVERNMENT AGENCIES--OPERATING

NEW SECTION. Sec. 101. FOR THE DEPARTMENT OF REVENUE

Multimodal Transportation Account--State

State Route 509 - I-5 to Des Moines Way S and S 188th Street, New
Extension - Design, Right of Way, and Construction

The appropriation in this section is provided for the design, right
of way, and construction phases necessary to extend the freeway section
on State Route 509 from its current terminus at S 188th Street near
SeaTac Airport southeast to intersect Interstate 5 in the vicinity of
S 210th. The new extension will provide a divided roadway with two
general-purpose lanes and one HOV lane in each direction. The South
Access Road will extend south from SeaTac Airport to intersect with SR
509 extension in the vicinity of S 206th. Improvements to the local
arterial system will be made to accommodate these new corridors and to
improve traffic operations.

2	Motor Vehicle Account--State Appropriation		
3	for distribution to the counties	\$	7,250,000
4	TOTAL	\$	14,500,000

5 The distributions in this section are subject to the following
6 conditions and limitations and specified amounts are provided solely
7 for that activity:

8 (1) The motor vehicle account--state appropriation to cities is to
9 be distributed in one distribution in June 2003 consistent with RCW
10 46.68.110 (4) and (5). Deductions shall not be made for supervision,
11 studies, or the city hardship assistance program.

12 (2) The distribution to counties shall be distributed in a manner
13 consistent with RCW 46.68.122. Deductions shall not be made for
14 supervision, studies, or the city hardship assistance program.

15 (3) The amounts provided in this section may not be used to
16 supplant any existing local government funding for transportation
17 projects or programs. Any local government in violation of this
18 requirement shall immediately forfeit its eligibility for future
19 distributions provided under this section.

20 PART 10

21 PROVISIONS NECESSARY TO IMPLEMENT APPROPRIATIONS

22 NEW SECTION. **Sec. 1001.** (1) Agencies shall expedite the
23 expenditure of appropriations in order to: (a) Rehabilitate
24 transportation infrastructure resources; (b) accelerate transportation
25 related environmental rehabilitation and restoration projects for the
26 improvement of the state's natural environment; (c) reduce additional
27 costs associated with acquisition and construction inflationary
28 pressures; and (d) provide additional employment opportunities
29 associated with transportation capital expenditures.

30 (2) In order to meet the goals of this section, the following
31 conditions apply to the appropriations of this act: To the extent
32 feasible, agencies are directed to accelerate expenditures and may use
33 contracted design and construction services wherever necessary to meet
34 the goals of this section.

1 NEW SECTION. **Sec. 1002.** The amounts shown under the headings
2 "Prior Biennia," "Future Biennia," and "Total" in this act are for
3 informational purposes only and do not constitute legislative approval
4 of these amounts.

5 NEW SECTION. **Sec. 1003.** (1) Unless otherwise stated, for all
6 appropriations under this act that require a match of nonstate money or
7 in-kind contributions, the following requirement, consistent with RCW
8 43.88.150, shall apply: Expenditures of state money shall be timed so
9 that the state share of project expenditures never exceeds the intended
10 state share of total project costs.

11 (2) Provision of the full amount of required matching funds is not
12 required to permit the expenditures of capital budget appropriations
13 for phased projects if a proportional amount of the required matching
14 funds is provided for each distinct, identifiable phase of the project.

15 NEW SECTION. **Sec. 1004.** Any capital improvements or capital
16 projects involving construction or major expansion of a state office
17 facility, including, but not limited to, district headquarters and
18 detachment offices, shall be reviewed by the department of general
19 administration for possible consolidation, colocation, and compliance
20 with state office standards before allotment of funds. The intent of
21 the requirement imposed by this section is to eliminate duplication and
22 reduce total office space requirements where feasible, while ensuring
23 proper service to the public.

24 NEW SECTION. **Sec. 1005.** The governor, through the office of
25 financial management, may authorize a transfer of appropriation
26 authority provided for a capital project that is in excess of the
27 amount required for the completion of such project to another capital
28 project for which the appropriation is insufficient. No such transfer
29 may be used to expand the capacity of any facility beyond that intended
30 by the legislature in making the appropriation. Such transfers may be
31 effected only between capital appropriations to a specific department
32 or agency and only between capital projects that are funded from the
33 same fund or account. No transfers may occur between projects to local
34 government agencies except where the grants are provided within a
35 single omnibus appropriation and where such transfers are specifically
36 authorized by the implementing statutes which govern the grants.

1 For purposes of this section, the governor may find that an amount
2 is in excess of the amount required for the completion of a project
3 only if: (1) The project defined in the notes to the budget document
4 is substantially complete and there are funds remaining; or (2) bids
5 have been let on a project and it appears to a substantial certainty
6 that the project as defined in the notes to the budget document can be
7 completed within the biennium for less than the amount appropriated in
8 this act.

9 For the purposes of this section, the legislature intends that each
10 project be defined as proposed to the legislature in the governor's
11 budget document, unless it clearly appears from the legislative history
12 that the legislature intended to define the scope of a project in a
13 different way.

14 A report of any transfer effected under this section, except
15 emergency projects or any transfer under \$250,000, shall be filed with
16 the legislative transportation committees of the senate and the house
17 of representatives by the office of financial management at least
18 thirty days before the date the transfer is effected. The office of
19 financial management shall report all emergency or smaller transfers
20 within thirty days from the date of transfer.

21 NEW SECTION. **Sec. 1006.** If any provision of this act or its
22 application to any person or circumstance is held invalid, the
23 remainder of the act or the application of the provision to other
24 persons or circumstances is not affected.

25 NEW SECTION. **Sec. 1007.** This act is necessary for the immediate
26 preservation of the public peace, health, or safety, or support of the
27 state government and its existing public institutions, and takes effect
28 immediately.
